

Clarify Performance Analytics

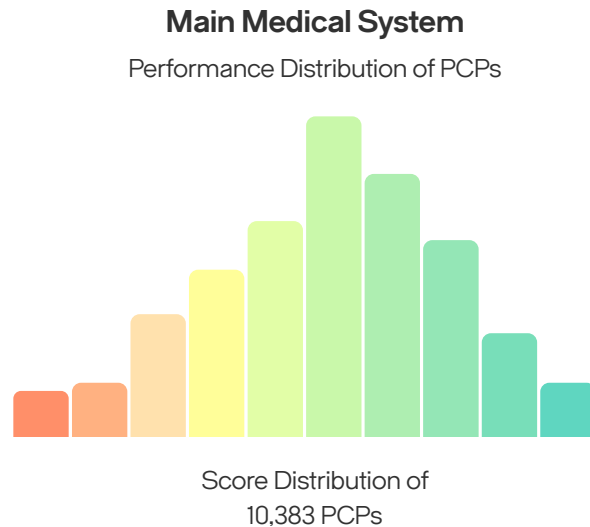

Clarify Health's performance analytics help organizations optimize provider networks, improve performance, and drive growth. Using proprietary methodologies like Patient Care Episode Groupings, PCP and Specialty Attribution, and patient-level benchmarking, they deliver actionable insights on provider performance, market rates, and referral patterns.

Extending beyond the software, customers may augment their staff with hands-on support from Clarify's analysts, enabling competitive network design, cost efficiency, and data-driven performance improvements to achieve strategic goals.

Deeply Understand Performance

Access meticulously calibrated provider benchmarks and comprehensive scores to evaluate episode management efficiency quality, and identify high-performing providers for a reliable and accurate directory. Integrate with actual care costs for a comprehensive view of provider affordability and value within your organization and the broader market.

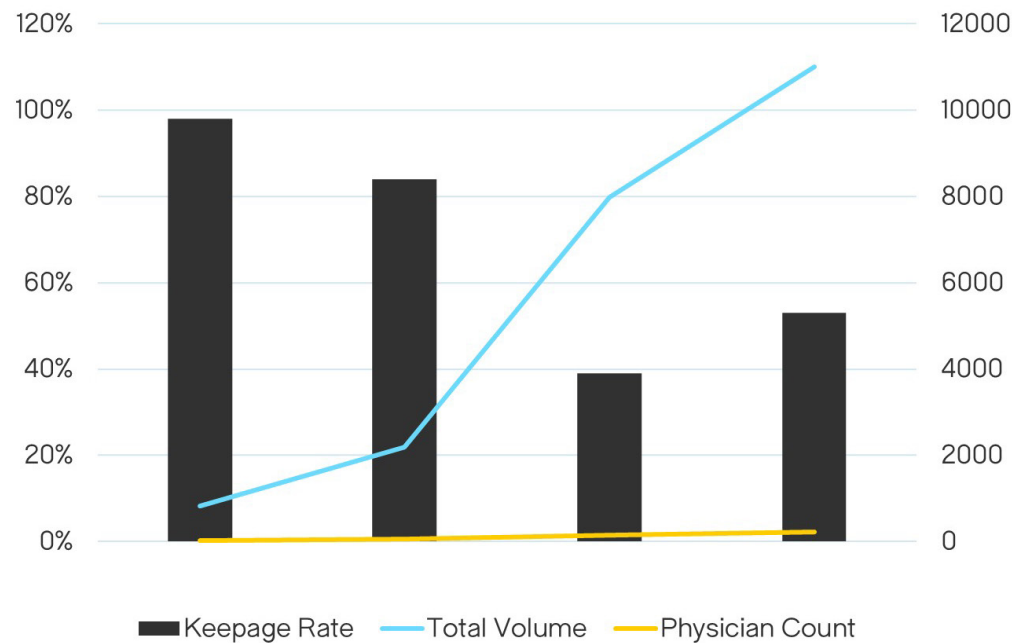

Negotiate competitive rates

Enter contracting conversations armed with the most pertinent information from 1.5+petabytes of price transparency data, enriched with claims data, to form the industry's most meaningful reimbursement rate intelligence. Combine with performance analytics to give insight into other economic and clinical metrics.
