

Contain costs and boost care quality with AI-powered, predictive performance analytics

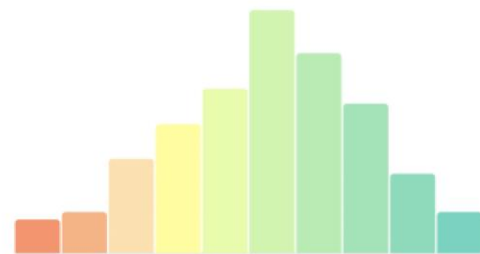

Provider performance in terms of cost, quality, and outcomes can be a black box. Health plans need to pinpoint the root cause to be able to act. Clarify Performance IQ Suite provides transparent, granular insights using longitudinal data and predictive analytics to diagnose and address network effectiveness, quality improvement, and cost control measures.

- Access insights from integrated claims, network, and patient data to understand medical cost drivers with clarity
- Measure provider performance across multiple vectors, including quality, cost, efficiency, and outcomes
- Understand care patterns including direct and indirect referrals
- Optimize and build competitive networks with market insights and pricing details
- Explore high-risk populations to plan for network support and clinical intervention

Main Medical System

PERFORMANCE DISTRIBUTION OF PCPS

SCORE DISTRIBUTION OF 10,383 PCPS

Actionable insights. Real results.

\$50M

Revenue growth for one plan directly related to more competitive networks

\$285M

In unwarranted clinical variation identified across 1.2 million members

\$1.5M

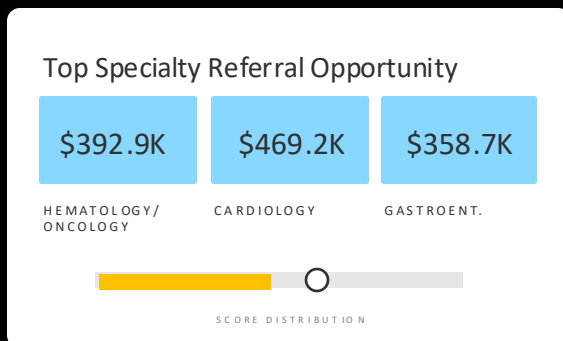

Saved in analytics resources by giving providers direct access to insights

20,000

Hours saved in provider evaluation and network design

Blueprint improved provider performance

Identify the drivers of performance with integrated network, claims, and rates data.

"Clarify provided comprehensive provider insights in one, integrated, platform for us to compare our plans to our competitors and see what network changes we needed to make to ensure high-quality member care."

SENIOR DIRECTOR NETWORK ANALYTICS

Gain clear insights. Act with confidence.

Get the critical building blocks to contain costs and optimize quality care to:

- Optimize Provider Performance: Create more efficient and affordable networks, guide care, and ensure quality with improvement programs
- Assess Competitive Networks: Design networks to enhance market position and support growth
- Refine Referral Optimization: Redirect care to high-performing specialists based on cost and quality metrics
- Select High-Value Sites of Service: Identify and implement strategies to reduce unnecessary spending across inpatient, outpatient, and sites of care
- Understand Real Financial Opportunity: Gain quantified real-dollar insight into actionable interventions across opportunity levers

About Clarify Health

Clarify unlocks the hidden value in healthcare data. Trusted by providers, payers, tech and services, and life sciences companies, Clarify uses the power of data and AI-powered predictive analytics to make complex decisions easier. The Clarify Atlas Platform® is the foundation, leveraging the industry's largest and most robust dataset to map more than 300 million lives and 20 billion data points to surface actionable insights with unparalleled speed and precision.
